2024 1660 MODIFIED CLASS (SS) TAR

Introduction: Competitor age restriction: Competitors may compete in this class from the Year in which they turn 14.

Please note that whilst this is an 8v class the utilization of 12v and 16v engines will be investigated during

the 2023	the 2023 and 2024 seasons.		
SS 1.	Eligibility of vehicle and bodies:		
1.1	Any saloon, GT or Coupe type car or body replicated, semi or full space framed version may be used,		
	except for station wagons and panel vans which are prohibited.		
1.2	LDV's bodies may be used, with the following limitation which will not be negotiated:		
1.3	Any LDV body which can carry a maximum load of 650kg, it follows that the Golf Caddy being the		
	maximum which can be used.		
1.4	Front and rear wheel drive vehicles are permitted.		
1.5	Bodywork must be centrally placed on the chassis and may not be offset.		
1.6	Any drive train, cooling, axle or brake component may be used provided the donor vehicle complies		
	with the type of car or body.		
SS 2.	General Racing Modifications		
2.1	The following listed modifications are free		
2.1.1	Flywheels (including flexplates)		
2.1.2	Pressure Plates		
2.1.3	Clutches		
2.1.4	Pulley sizes and types including adjustable Vernier pulleys		
2.1.5	Pistons and piston rings with exception of forged pistons which are not permitted		
2.1.6	Connecting rods from various models of road going cars		
2.1.7	Crankshafts from various models of road going cars		
2.1.8	Compression ratios		
2.1.9	Bore and stroke ratios		
2.1.10	Valve and tappet covers are free with the condition that the cover does not form part of the valve		
	train.		
2.1.11	Sumps		
2.1.12	Fuel pumps		
2.1.13	Fuel pressure regulators		
2.1.14	Camshafts		
2.1.15	Dellorto and Weber carburetors parts may be interchanged		
2.2	The following listed modifications are not permitted		
2.2.1	The method of camshaft drive may not change		
2.2.2	Dry sump systems		
SS 2.6	Ignition/Engine Management		
2.6.1	Any Standard distributor may be used.		
2.6.2	A Standard electronic ignition may be fitted		
2.6.3	EFI restricted to Dicktator, Spitronics and Power Mods Units only		
2.6.4	EFI Engine Map may not be adjusted from within the cockpit		

SS 2.7 The following items are permitted: 2.7.1 Electronic Water Pumps ARE permitted. 2.7.2 Roller rockers ARE permitted. SS 3. Brakes: 3.1 Restricted to 4,2 and single pot brake calipers from road going vehicles only. 3.2 4 pot calipers may only be off the Toyota Hilux Bakkies only. 3.3 Master cylinders are free. 3.4 Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: 5.1 Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free 5.6.6 Slide type Throttle Bodies are not permitted 5.7.1 Choke tubes sizes free 5.7.2 All modifications to the carburetor and jets are permitted provided the carburet	ring or post
2.7.1 Electronic Water Pumps ARE permitted. 2.7.2 Roller rockers ARE permitted. SS3. Brakes: 3.1 Restricted to 4,2 and single pot brake calipers from road going vehicles only. 3.2 4 pot calipers may only be off the Toyota Hilux Bakkies only. 3.3 Master cylinders are free. 3.4 Aftermarket pedal boxes may be used. SS4. Dimension and Weights: Weight of the car including competitor shall be a minimum of 800kg weighed pre, due event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Amaximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS5. Engine: 5.1 Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Engine injection systems are permitted 5.6.1 Injection systems are permitted 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free	ring or post
2.7.2 Roller rockers ARE permitted. SS 3. Brakes: 3.1 Restricted to 4,2 and single pot brake calipers from road going vehicles only. 4 pot calipers may only be off the Toyota Hilux Bakkles only. 3.3 Master cylinders are free. 3.4 Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: 5.1 Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free 5.1 Slide type Throttle Bodies are not permitted 5.6 Side Draght carburetors restricted to 40mm 5.7.1 Choke tubes sizes free	ring or post
SS 3. Brakes: 3.1 Restricted to 4,2 and single pot brake calipers from road going vehicles only. 4 pot calipers may only be off the Toyota Hilux Bakkies only. 3.2 Apot calipers may only be off the Toyota Hilux Bakkies only. 3.3 Master cylinders are free. 3.4 Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free Slide Uppe Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	ring or post
3.1 Restricted to 4,2 and single pot brake calipers from road going vehicles only. 3.2 4 pot calipers may only be off the Toyota Hilux Bakkies only. 3.3 Master cylinders are free. 3.4 Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: 5.1 Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free 5.1 Side Draght carburetors may be modified to 40mm 5.7.1 Choke tubes sizes free	ring or post
 4 pot calipers may only be off the Toyota Hilux Bakkies only. Master cylinders are free. Aftermarket pedal boxes may be used. Dimension and Weights: Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. Maximum width of the vehicle is 2000mm. All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draught Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free 	ring or post
3.3 Master cylinders are free. Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mf Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	ring or post
3.4 Aftermarket pedal boxes may be used. SS 4. Dimension and Weights: 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mr Fuel rails free Slide Draught carburetors restricted to 40mm Choke tubes sizes free	ring or post
SS 4. 4.1 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. 4.2 Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. 4.3 All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. 4.4 Maximum width of the vehicle is 2000mm. 4.5 All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	ring or post
 Weight of the car including competitor shall be a minimum of 800kg weighed pre, do event with no tolerance permitted. Wheelbase of the vehicle must be within 50mm of the original manufacturers specifications. All four wheels of the vehicle must fit within the body of the vehicle, which det maximum dimensions. maximum dimensions. Maximum width of the vehicle is 2000mm. All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mr Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	
4.4 Maximum width of the vehicle is 2000mm. All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Engines restricted to 2 valves per cylinder Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mr Fuel rails free Slide type Throttle Bodies are not permitted S.7 Side Draught carburetors restricted to 40mm Choke tubes sizes free	ermines the
All 4 wheels of the vehicle must fit within the body of the vehicle which determines the dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	
dimensions. SS 5. Engine: Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Enginestricted to 2 valves per cylinder S.6. Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m Fuel rails free Slide type Throttle Bodies are not permitted S.7 Side Draught carburetors restricted to 40mm Choke tubes sizes free	
SS 5. Engine: 5.1 Donor Engines are free provided they are commercially available and do not have applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free	e maximum
Donor Engines are free provided they are commercially available and do not have applications Engine displacement may not exceed 1660cc Only 3 or 4-cylinder 4 stroke engines permitted Engines restricted to 2 valves per cylinder Turbo or super charging is not permitted Fuel injection systems are permitted Injectors are free but limited to one injector per cylinder only Single throttle body on Plenum system may not exceed 70mm The Plenum design is free. Individual throttle bodies (4) are permitted and may not exceed 43mm in size Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mr Fuel rails free Slide type Throttle Bodies are not permitted Side Draught carburetors restricted to 40mm Choke tubes sizes free	
applications 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free	
 5.2 Engine displacement may not exceed 1660cc 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	sport type
 5.3 Only 3 or 4-cylinder 4 stroke engines permitted 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.4 Engines restricted to 2 valves per cylinder 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.5 Turbo or super charging is not permitted 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.6 Fuel injection systems are permitted 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Side type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.6.1 Injectors are free but limited to one injector per cylinder only 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43mm 5.6.6 Fuel rails free Side type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.6.2 Single throttle body on Plenum system may not exceed 70mm 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free 	
 5.6.3 The Plenum design is free. 5.6.4 Individual throttle bodies (4) are permitted and may not exceed 43mm in size 5.6.5 Side Draft Carburetors may be modified to be a throttle body but may not exceed 43m 5.6.6 Fuel rails free Slide type Throttle Bodies are not permitted 5.7 Side Draught carburetors restricted to 40mm 5.7.1 Choke tubes sizes free

5.11 Oil coolers are permitted.	n uoes not
SS 6. Engine positioning: - Rear wheel drive and Belly Plate	or does not
6.1 The rear face of the engine is where the bell housing and the engine meet will not b	or does not
600mm back of Centre line of the front wheels.	
6.2 Belly plate	
6.2.1 A steel or aluminium belly plate must be installed between the chassis rails to cover the	
the engine and gearbox. This belly plate must be secured using rivets or bolts. Cable	e more than
screws are not permitted. It must be effective in containing any fluid that may drip out of	e more than
and gearbox.	e more than e area under ties and Tex

	T
SS 7.	Exhausts:
7.1	All piping shall be secured with saddles, preventing exhaust pipes from coming free in the event of
	it breaking off.
7.2	Exhaust tail pipes passing out the side of the vehicle may only do so at a maximum height of 450mm
	and be level or downward facing, measured from the top of the pipe to the ground.
7.3	Branches are permitted.
7.5	branches are permitted.
00.0	
SS 8.	<u>Fuel</u>
8.1	Only Methanol may be used without any performance enhancing additives.
8.2	Lubricating additives may be added to Methanol and must be reflected in the competitors sign on
	sheet by listing the additive and mix ratio. These specific products are restricted to Silkolene
	Castorene R40S, Liquid Power Methanol Lubrication, Top Lube Alcohol Fuels Lubrication and Castor
	Oil
8.3	M5 Methanol is specifically excluded.
8.4	It is highly recommended that Methanol using vehicles do have fire extinguishers fitted to the
	competitor compartment, with all safety measures taken when fitting extinguishers, preventing the
	dislodging in an event of impact.
	disloughing in an event of impact.
66.0	Charing and Communicate
SS 9.	Steering and Suspension:
9.1	Only commercially available differential housings, steering racks and steering boxes or quick ratio
	versions thereof as fitted to road going vehicles.
9.2	Suspension design is free but limited to either commercially available suspension uprights as fitted
	to vehicles described in item SS 1. above or locally fabricated components.
9.3	Adjustable spring platforms may be fitted.
9.4	Competition springs are permitted.
9.5	The use of rose type joints are permitted.
9.6	Only South African made Gabriel, Armstrong, Monroe and KYB shock absorbers may be used.
9.7	The total limit permitted is 4, with one per corner.
9.8	No remote shock absorber reservoirs may be used.
	· ·
9.9	Power steering is permitted.
9.10	Suspension may be designed with an offset.
9.11	A maximum of 5 links may be used on the rear suspension.
9.12	Wish bone type suspensions are allowed on space frames or semi space frames.
9.13	Front Wheel Drive Spaceframe cars may only use a beam rear axle.
SS 10.	<u>Transmission:</u>
10.1	Only local differentials and gearboxes shall be permitted.
10.2	No straight cut boxes permitted.
10.3	Gear ratios are free.
10.4	Only lock differentials permitted.
10.5	Limited slip differentials not permitted.
	Limited ship differentials not permitted.
SS 11.	Wheels and Tyres
11.1	Restricted to the following types of tyres
11.1.1	- Dunlop FM800A 195/15 82V
11.1.2	- Continental Premium Contact 5 195/15 82V
11.1.3	- Hankook Ventus V12 Evo 2 195/15 82V
11.1.4	- Apollo Alnac 205/13 87H
11.2	Tyre profiles are free
11.3	Specific championship regulations to determine tyre allocations.
11.4	Competitors may not use more than 6 tyres an event
SS 12.	Wings
12.1	Wings are optional
12.1	
	Wing designs, positioning and sizes are free with the following restrictions
12.3	Wing may not protrude beyond the side of the vehicle.

12.4	Wing end plates may not exceed 500mm x 500mm and may be offset
12.5	Vehicles restricted to one wing only
12.6	Two tier wings are permitted provided they are contained within the prescribed wing endplates Highest part of the wing may not protrude more then 300mm above the highest part of the original roof when the vehicle is on level ground (wing endplates excluded)
12.7	Wing may not protrude more then 200mm behind the rear bumper, when the rear bumper is mounted correctly (wing endplates excluded). Where Competitors mount rear bumpers further back to exploit the rearward positioning rule the Officials will deduct the measurement of the offset difference of the misaligned bumper by comparing it to vehicles where the bumper is mounted correctly.
